Director Kathryn Kinnear

BAS Technology Studies & Environmental Management
Diploma Business
Progression Masters Environmental Management

Experience: 15 Years Environmental Management

Kathryn Kinnear is the Director of Bio Diverse Solutions. Kathryn has worked in Environmental Management for 15 years, and has developed specialist skills from her field operations, reporting and management experience.

Kathryn completed a Bachelor of Applied Science at Edith Cowan University in 1994 and worked with the Department of Environment and Conservation for 10 years. During this time, Kathryn worked in the Kimberley, Walpole and Albany District.

Kathryn joined Opus International Consultants in 2005 and further developed her skills in Environmental Management through developing the Environmental Services at the company in Albany.

During her time with Opus, Kathryn worked for a variety of clients, including City of Albany, Water Corporation, Western Power, Department of Environment and Conservation, Shire of Denmark, Shire of Katanning and various Private Clients.

Kathryn has diverse experience and capabilities ranging from Water Quality Sampling, Vegetation Assessment, Visitor Risk Assessment, Soil Sampling (including Acid Sulphate Soils), Dieback Hygiene Assessment and Fire Management.

Kathryn has excellent field operational experience, training, local and environmental knowledge with extensive track record in Environmental Management Services. Kathryn is currently studying her Masters in Environmental Management at Edith Cowan University.

Bio Diverse Solutions for the client

Bio Diverse Solutions commenced in August 2009. Bio Diverse Solutions is owner operated and currently employs Kathryn Kinnear as a working director.

Bio Diverse Solutions maintains a consistent cash flow and provides expertise to several companies and organisation's within the South Coast Region and the Wider Western Australian business Community.

Bio Diverse Solutions maintains insurance policies consistent with Government Agency requirements (Public Liability, Professional Indemnity, Workers Compensation).

Bio Diverse strives to match Environmental solutions specific to meet client's requirements. One of Bio Diverse Solutions goals is to:

"Provide ongoing service that is cost effective and reflective of the quality and integrity of the Environmental Services provided by Bio Diverse Solutions".

Bio Diverse Solutions is multi- disciplinary and can source experts in relevant fields if required by the client. Kathryn has over 15 years experience and contacts in the discipline and can match expertise to specific project requirements.
